THE DISK-SHAPED STELES – HILARRI BOROBILAK

In the cemeteries of the Basque country, you may notice the beautiful disk-shaped steles. These steles are burial monuments which face East-West like the "etxea" (Basque house) and Roman churches. The carved components were crafted using ancient techniques and are unique to each stele, according to the inspiration of the engraver. This traditional Basque art was supplanted by marble and granite vaults, surmounted by crosses. Nowadays, the regional cemeteries contain many contemporary steles.
